ALIGNMENT WITH SDGS

Initiatives are mainly aligned with SDG 3, 11, 13 and 9

MAIN PARTNERS

Throughout 2019, Costa Rica had 149 cooperation actions, projects and programs under execution. The largest part of these initiatives was implemented through Regional SSC (44%), followed, in the same proportion, by those developed through Bilateral SS and Triangular Cooperation (28% each). Guatemala, Panama and El Salvador stood out among its main partners.

Although Costa Rica combined the exercise of different roles in the three modalities which are recognized in the Ibero-American space, its increasing participation as provider in Triangular Cooperation initiatives should be highlighted. This way, it could transfer experiences and lessons learnt in terms of *Environment, Education and Energy*. In turn,

this country also strengthened its own capacities and knowledge in *Disaster management, Health, Environment, Agriculture and livestock, Legal and judicial development and Human Rights, Education and Enterprises*, among other sectors.

As a result of efforts made in the framework of this cooperation, Costa Rica was mainly able to contribute to advance the achievement of SDG 3 (Good health and well-being), SDG 11 (Sustainable cities and communities), SDG 13 (Climate action) and SDG 9 (Industry, innovation and infrastructure).
