ALIGNMENT WITH SDGS

Initiatives are mainly aligned with SDG 11, 9 and 3

MAIN PARTNERS

During 2019, Paraguay had 133 cooperation actions, projects and programs under execution. 41% of these exchanges was implemented through Bilateral SSC, this proportion being similar to that of Regional SSC (38%). The remaining 21% was explained by Triangular Cooperation.

Paraguay participated in these exchanges predominantly as recipient, role through which it strengthened its capacities in matters related to *Agriculture and livestock*, *Health*, *Other services and social policies* and *Disaster management*, among other sectors. However, this country also increasingly acted as Bilateral SS and Triangular Cooperation provider, and it could share its experience in topics associated with *Transportation and storage*, *Energy* and *Other services and social policies*.

Argentina, Brazil and Chile should be highlighted among its main partners. As a result of efforts made in the framework of these exchanges, Paraguay's SS and Triangular Cooperation could contribute to advance the achievement of SDG 11 (Sustainable cities and communities), SDG 9 (Industry, innovation and infrastructure) and SDG 3 (Good health and well-being).
