Strengthened capacities

In units

Alignment with SDGs

Initiatives are mainly aligned with SDG 3, 16, 11 and 8

Main partners

Around 69% of the 255 initiatives in which Chile participated between 2020 and 2021 were implemented through Bilateral SSC, followed by Regional SSC programs (21%) and Triangular Cooperation actions and/or projects (10%). Chile acted as provider in almost 60% of its Bilateral SSC and in 80% of the Triangular Cooperation carried out with other partners, while it mainly played the role *both* in Regional SSC programs.

This country was able to share its experience in *Health, Strengthening institutions and public policies, Legal and judicial development and Human Rights* and *Other services and social policies*, among others. Exchanges with other countries, in turn, contributed to strengthen Chilean knowledge and capacities in the following sectors: *Agriculture and livestock, Other services and social policies, Education, Strengthening*

institutions and public policies, Management of public finances and Environment.

Chile's main Ibero-American partners were Peru, Argentina and Mexico. Through these initiatives, this South-American country mainly contributed to the achievement of SDG 3 (Good health and well-being), SDG 16 (Peace, justice and strong institutions), SDG 11 (Sustainable cities and communities) and SDG 8 (Decent work and economic growth).
