

# PERU

# 253

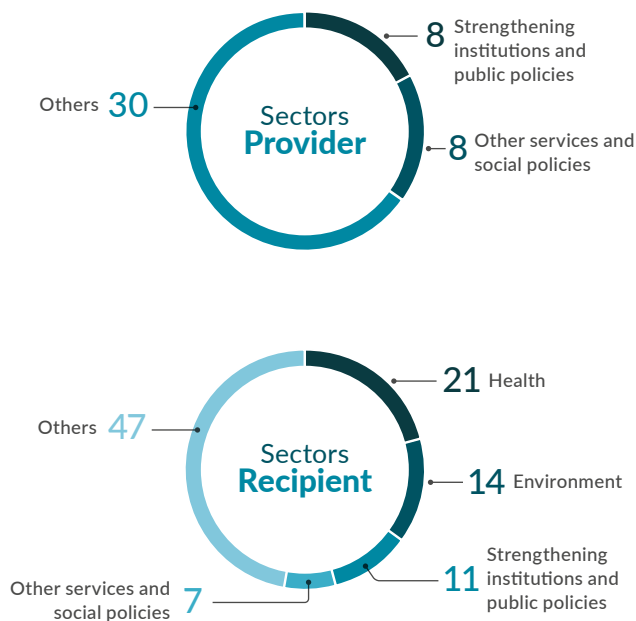

## Participation by modalities and roles

In units

## Strengthened capacities

In units

## Alignment with SDGs

Initiatives are mainly aligned with SDG 8, 16 and 3

## Main partners

Around 70% of the 253 initiatives in which Peru participated between 2020 and 2021 were developed through Bilateral SSC. The remaining 30% was distributed between Regional SSC programs (20%) and Triangular Cooperation actions and/or projects with other partners and stakeholders (10%). Peru's cooperation was particularly active with Chile, Colombia and Ecuador

Peru combined the provider and recipient role in the initiatives in which it participated. Given its accumulated experience in different areas, it was able to share its knowledge in a variety of sectors, among which *Strengthening institutions and public policies* and *Other services and social policies* stand out. On the other hand, as recipient, it was

able to strengthen its capacities in *Health*, *Environment*, *Strengthening institutions and public policies* and *Other services and social policies*, among others.

As a result of the efforts made in the framework of these 253 initiatives, Peru was able to contribute to the region's alignment with the 2030 Agenda, mainly through SDG 8 (Decent work and economic growth), SDG 16 (Peace, justice and strong institutions) and SDG 3 (Good health and well-being).
